Number: 1188

For other professionals: 2.0
professional hours of
continuing education.

Mental Health Triage for Primary Care – This program will focus on the first point of contact a patient or prospective patient makes with a primary care provider's triage nurse seeking care and resources when experiencing a mental health crisis.

Target Audience

Registered Nurses, other Primary
Care Staff and Community
Resources interested in the
integration of Behavioral Health with Primary Care

Learning Objectives

After this session, participants will be able to:

- Describe a technique to use when called upon to assess mental health status based on patient-initiated telephone communications
- Identify 2-3 the local resources immediately available to patients experiencing a mental health crisis
- Identify short and longer term resources available for behavioral health patient care and follow-up.
- Demonstrate the language utilized and attitude reflected when communicating with a patient experiencing a mental health crisis
- Describe the integration of the triage role with primary care and community resources.

Faculty: Linda Pimenta, DNP, FNP-BC

Cindy Wolz, DNP, FNP-BC, PMHCNS-BC
