**Registration opens on
July 10th!**

Cost: Free

Stipends are available!

*All sessions will be remote, with an
in-person session on November 21.*

DESCRIPTION OF COURSE

This course focuses on increasing the overall capacity of Community Health Workers to work in both clinical and non-clinical settings. The workshop is based upon the CHW C3 core competencies and defined by the Massachusetts Board of Certification of Community Health Workers. Central to the course are real-life case studies and activities that prepare CHWs to educate, advocate, and problem-solve, working to bridge health care gaps within their communities.
